CONTENTS

Summary (Korean)	
Contents	
Chapter 1. Overview of Particulate Matter	
1. Chemical composition	
2. Concentration variation	
Chapter 2. Significance and Scope of the Work	
1. Significance of the work	
1.1 Secondly-formed particulate matter	
1.2 Issues of particulate matter	
2. Work scope and progress	
3. Characteristics of study area	
Chapter 3. Measurements of Study Periods	
1. Objectives	
2. Methods	
2.1 Measurement period and site	
2.2 Sampling and analysis	
3. Results and discussion	
3.1 Reanalysis of ions of the 2007 samples	
3.2 PM mass concentration in spring 2008	
3.3 OC/EC concentration in spring 2008	
Chapter 4. Measurements on the Roadside	
1. Objectives and progress	
2. Methods	
2.1 Measurement site and period	

2.2 Measurement methods
3. Results and discussion
 3.1 PM mass and OC/EC
 3.2 Ion concentrations

Chapter 5. Application of the Results
 1. Impact of the work
 2. Work plan and recommendation of the application

Chapter 6. References
